C-30	Eastern Oklahoma	Soda	283,686	T	ICP	ICP	Yes

MORALE OF CREWS:

Attitudes are good with the two crews on the Soda Fire. Elmer Orosco is with the 3 crews at the Tee Pee Incident in Meadow, ID. He will send in a separate report for Caddo Nation#2 (C- 5), Interagency# 4 (C-6), and Job Corps# 1 (C-7). Eastern Oklahoma (C-30) was demobed today and reassigned to the Tee Pee incident. I worked on getting a chase vehicle for their gear; one that we could turn back in to Boise at the end of our assignment. Ground Support was anticipating getting some back in around noon, and were on a waiting list. Both crews want a chase vehicle which would make travel and stowing gear much easier.

INJURIES:

No injuries reported.

MESSAGES:

I attended the morning briefing on the Soda Incident. This was the last briefing for the Type 1 IMT. The next briefing will be at the Type 3 ICP. The Southern Plains crew (C-28) was going to stay at the Soda Fire and were assigned to the type 3 team. They were going to pack up their gear and move to the other ICP. I will remain with C-28 at the Soda Fire.
